MODERN

20

Modern kitchens are on trend in terms of colour, style and finish. We have 6 ranges to choose from, each offering something a little bit different.

VERO TRUE HANDLELESS

64

The ultimate in contemporary kitchen design, True Handleless kitchens use an aluminium rail system allowing your fingers to flip open doors and drawers. Use rail colours to complement or contrast with your door colour.

CLASSIC CONTEMPORARY

86

Classic Contemporary kitchens combine a mix of classic design and materials, with contemporary colours and frame widths. With 6 range options, Classic Contemporary styling is taking the market by storm.

TRADITIONAL

118

Traditional kitchens are always popular in the UK, as homeowners embrace the period features of their home. With options including true timber and a multitude of ornate accessories, it's a choice that never dates.

LARDERS AND PANTRIES

Larger larders are highly fashionable and available in every range.

Indulge yourself and maximise your storage.

KITCHEN DOOR

Care Instructions

We recommend the following door cleaning instructions for all of our doors:

- Clean the doors using only a solution of 95% lukewarm water with no more than 5% soap.
- DO NOT spray anything on to your doors, this includes the solution recommended above.
- Use a clean damp (not wet) cloth
- Dry with a soft clean cloth. If it is a timber door, run the cloth along the grain direction.
- Any cooking marks must be wiped immediately.
- Do not allow liquids to seep into joints of doors. Wipe any spillages immediately.

DO NOT use any of the products listed below to clean the door as they may mark and damage the surface:

- Wax Furniture Polish
- Bleach/chlorine based cleaning products
- Abrasive cleaners
- Solvents
- Multi-purpose cleaners
- Alcohol based cleaners
- Ammonia or any other similar product
- Scouring pads or abrasive cloths

Environmental Information:

Please be aware, localised or intense heat/steam can damage fascias. Subsequently the use of small appliances such as kettles, toasters etc. in close proximity to your kitchen fascias should be avoided. Doors should not be exposed to extreme temperature changes. Due to their manufacturing process, vinyl doors must not be exposed to temperatures above 70°C as this may cause damage to the door's surface.
